

Dear colleague,

Welcome to the New Opportunities Fund ICT training programme.

We are delighted that you have chosen to study with the Inclusive Consultancy and Training Syndicate (ICTS) programme for teachers of pupils with severe and complex special educational needs.

The main medium of this training is self-study, with support on-line (Internet, web-based conferencing and email) - but you are not alone! Your ICTS tutor(s) will meet and talk with you at the beginning and end of the programme (spread over approximately 6 months) and will be available to offer support, advice, encouragement and answers to specific questions through email, at all times.

Ultimately, however, you are responsible for your own learning and for how much you get out of this programme. The Professional Development Record at the front of your ringbinder will remind you what to do, and help you to keep track of your progress through the programme. Please use it for guidance and self-assessment.

Good Luck!
